Table of Contents

Session 1

001-E048 Advanced asset optimization systems and workflows for rendering cross-functional UX 1
Damodaran Chingleput Sathyakumar

002-E019 The Real-Time 4K Image Super-Resolution on CPU with Hybrid of Post-Training Quantization And Quantization-Aware Training 9
Yi Xie, Kaixuan Liu, Bin Wang, Kunda Xu, Weifeng Yao, Ke Ding, Bo Peng

003-E018 All-in-one Approach for Large Language Models Inference 14
Shan Zhou, Pujiang He, Wenhuan Huang, Changqing Li, Yi Xie,Weifei Yu, Duyi Wang, Chen Meng, Sheng Gui

004-E022 Temporal Dynamics in Financial Sentiment Analysis Using Deep Learning Approaches 18
Balachandar Paulraj

005-E023 Two ARM Server Performance Analysis 25
Yang Yang, Cheng Chen, Zhiteng Hu

006-E024 A Preliminary Study of Contributing Guidelines in OSS Projects 30
Zhixing Li, Lingbin Zeng, Yuan Yuan, Gen Zhang, Tongqing Zhou, Zhiteng Hu, Yue Yu

007-E026 Exploring How Service Meshes Can Help To Facilitate The Development Of Microservices 35
Varun Chawla

008-E025 OSCH: A Clone Hunter for Open Source Community 44
Simiao Guo, Xunhui Zhang

009-E037 Graph-Based Social Network Analysis for Uncovering Fraudulent Patterns in Health Insurance 51
Shashank Agarwal

010-E020 BugBlitz-AI: An Intelligent QA Assistant 57
Yi Yao, Jun Wang, Yabai Hu, Lifeng Wang, Yi Zhou

Session 2

011-E043 Advancing Human Fall Detection Through Motion Data from Smart Wearable Sensors and CNN-BiGRU Model 64
Sakorn Mekruksavanich, Anuchit Jitpattanakul, Wikanda Phaphan

012-E044 Advances in Deep Learning for Earthquake Monitoring and Forecasting: Techniques, Applications, and Future Directions 69
X Y Wan, Y Song, T L Lau

013-M028 Multi-objective Optimization based Service Pre-deployment in Edge Computing 74
Junju Liu, Qianqian Zhang

014-E006 Research on Lightweight Key Management Solution in Hybrid Cloud 79
Bing Jiang, Wenhu Lu, Lei Cao, Longfei Zhao

015-E008 DDoS Attack Detection Method Based on Machine Learning 83

Cuilian Liu, Sirong Zhong

016-E009 Research on the Construction and Application of Marine Spatiotemporal Information Platform 88
Wenhu Lu, Longfei Zhao, Bing Jiang, Xiaoyi Jiang, Long He, Xue Guo

017-E012 Prediction of Transformer Oil Temperature Based on Feature Selection and Deep Neural Network 94
Yongxin Chen, Shiping E, Zhenan Du, Kanjun Zhang, Gaofeng Zhang

018-E015 ROI-YOLO Model: Real-time Deep Learning Detector for Floating Objects on River 99
Lili Zhang, Peng Jin, Yu Fan

019-E016 The Application of Artificial Intelligence in Exploring New Economic Growth in the Insurance Industry in the Context of Increased Natural Disasters 104
Jiang Mingyue, Chen Yuxuan, Zhang Siyu

020-E032 Visual Analysis of Power Communication Literature Research Based on CiteSpace 111
Chaochao Zhang, Jiahang Wang, Juan Huo, Haowei Zhang, Changtong Lu

Session 3

021-M018 Personal Credit Evaluation Model Based on Homomorphic Encryption 116
WenZheng Li, YuXuan Song, ShouYuan Wang

022-E042 Enhancing Chewing Detection with a CNN-BiLSTM Network Utilizing IMU and Photoplethysmography Data from an Earable Device 123
Sakorn Mekruksavanich, Phaisarn Jeefoo, Wikanda Phaphan,Anuchit Jitpattanakul

023-E021 DAMFE-Net: a Few-shot Crack Segmentation Model Based on Transfer Learning for Earth Dams 128
Lili Zhang, Zizun Wei, Peng Jin

024-E029 Enhancing Efficiency and Organization: Applying Lean Principles in University's Mockup Room 133
Krit Sittivangkul, Kasidech Treethong, Sunida Tiwong

025-E030 Media and Investor Sentiment Prediction for Stock Returns - A BP Neural Network Model based on Whale Optimization Algorithm 138
Zhongyang Yu, Yuan Miao, Gaofei Zhao, Jinyu Zhang

026-E031 JavaScript-based Power Line Communication Signal-Simulation 143
Juan Huo, Chaochao Zhang, Zhuo Fu, Changtong Lu

027-E033 Complete Blood Cell Detection Based on Improved YOLOV8 148
Wei Jianjing, Zhang Shurong, Xu Baolin, Zhang Xin

028-E035 Markets Efficiency Measuring System based on BP Neural Network 153
Zimeng Ye, Xinyi Huang, Yu Chen, Jinyu Zhang

029-E036 Tobacco Leaf NIR Management and Classification Based on JSON Conversion and Constrained K-means for SQLite Database 158
Juan Huo, Wenning Feng, Rong Ma, Feng He, Rui Wang, Fengwei Bao

030-E038 A Study on The Rhythmic Characteristics of Mongolian Long Tunes Based on Respiratory Parameter Analysis 163
Chen Dai, Axu Hu

Session 4

031-E039 Research on The Energy Characteristics of Mongolian Long Tunes Based on Acoustic Analysis 168
Chen Dai, Axu Hu

032-M002 Design And Implementation of Online Education Platform with Microservice Architecture 173
Qidong Li, Lichen Zhang

033-M060 User-Specified Conditional Preferences Driven Personalized Skyline Web Services Selection 178
Senfu Ke, Xiaodong Fu

034-M035 An Incremental Runtime Stochastic Model Checking Framework for Verifying Communication Protocols of Industrial CPS 183
Yang Liu, Tao Wang, Chao He
